

How To Access Our Files With Your Browser

- Files are on the GDS FTP site: www.garsondesign.com/ftp
- Same on Mac with Safari or Netscape • NOTE: You can not upload files - you'll need a FTP program to do that.

Step 1. Type the address provided to you in your browser

Step 2. Click on a file

Step 3. These 2 windows open.

Step 4. Select Save and then choose your save location. Remember the location. Open the file.

The screenshot shows a Microsoft Internet Explorer window titled "Index of /ftp/PVEadsMoaa". The address bar contains "http://www.garsondesign.com/ftp/PVEadsMoaa/". The main content area displays a directory listing with columns for Name, Last modified, Size, and Description. The file "4753PVEad2half121107.pdf" is selected and circled. Two "File Download" dialog boxes are open. The top one shows "Getting File Information: 4753PVEad2half121107.pdf from www.garsondesign.com". The bottom one asks "Do you want to save this file?" and has the "Save" button circled.
