How to setup email through Outlook

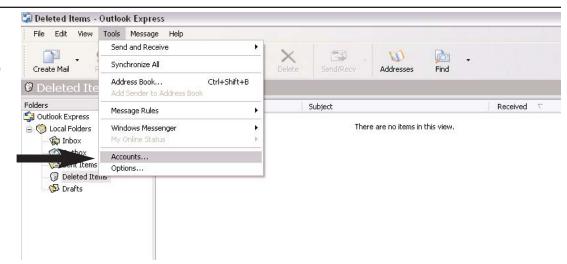

## **Email**

Your website hosting with Garson Design includes email.

These instructions will explain how to set up outlook to send and receive email from our servers.

1

Open Outlook
Click on tools from the menu bar
Select Accounts

2

From the <u>accounts</u> menu, select <u>Add</u>.Then <u>Mail</u>

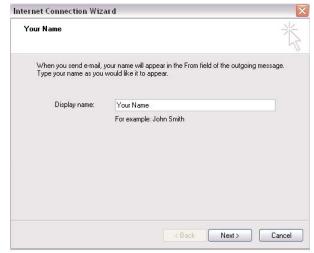

3

The following menus will ask for information to set up the account.

The first screen will ask for your name.

ie Robert Guzman, Ann Engelhart, etc

This screen will confirm that you have entered all your information.

8

The last step steps are:

- A from the Internet Accounts menu, select the account you just set up and click Properties.
- B from the properties menu, click the check box that says "My server requires authentication", then click on settings.
- C Verify that the "Use same settings as incoming mail server" option is chosen.

Click Ok on the windows to close them.

You are now ready to send and receive email.
