

FTP ACCESS This is the default Garson Design Services FTP site to upload your files, photos, etc. This is assuming you have and are familiar with your ftp program.

• **PC:** https://filezilla-project.org • **Mac:** https://cyberduck.io

1

From your FTP program enter (this example is Fetch for Mac (Apple))
Your FTP program may differ.

Host Name: **garsondesign.com**
UserID/Name: **upload@garsondesign.com**
Password: **#cld09tm**

2

Click ok and you will see a directory similar to the example to the right.

Please see the directions for your FTP software program for instructions on up/downloading files.

Special Notes:

1. Download your FTP program, open and then input the above specifics to access GDS FTP site. Then upload your files. If many files - best to put in a folder as opposed to each file separately. Email or call GDS when you are finished so know to download your files.
